Vintage Burlesque  
Resort

*This Mugler Resort 2021 collection takes inspiration from iconic vintage burlesque muses, renowned for their excessive show girl costumes and glamorous aesthetic. Examining the clashing silhouettes, this collection seizes the vintage idols cinched hourglass tailoring, versus sheer and draped figures.*

This collection takes inspiration from light installation artist **Adela Andea**. Inspired by petri dishes and messy compositions, Andea's art has fueled an overly **excessive, neon, loud, and clashing** autumn/winter collection for **Alice and Olivia**.
