Specialism: Print

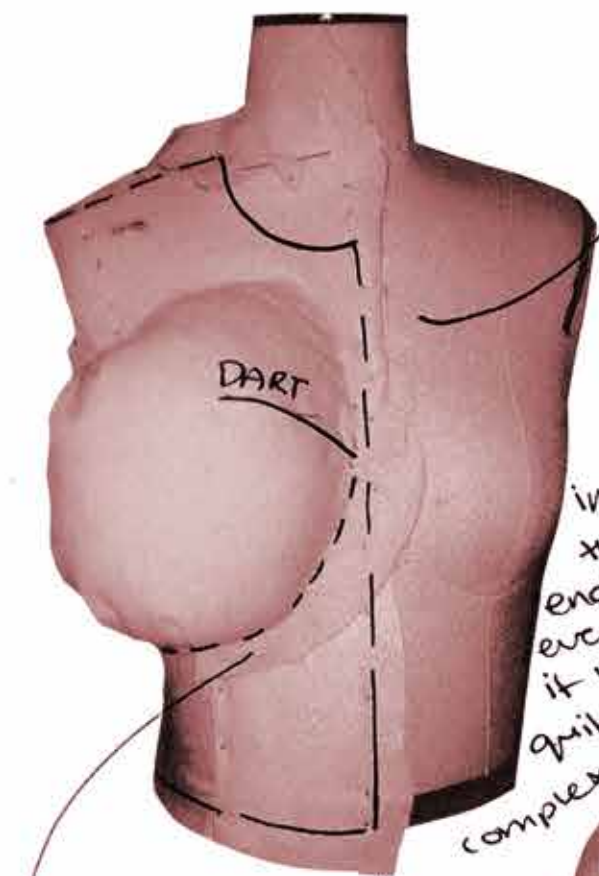

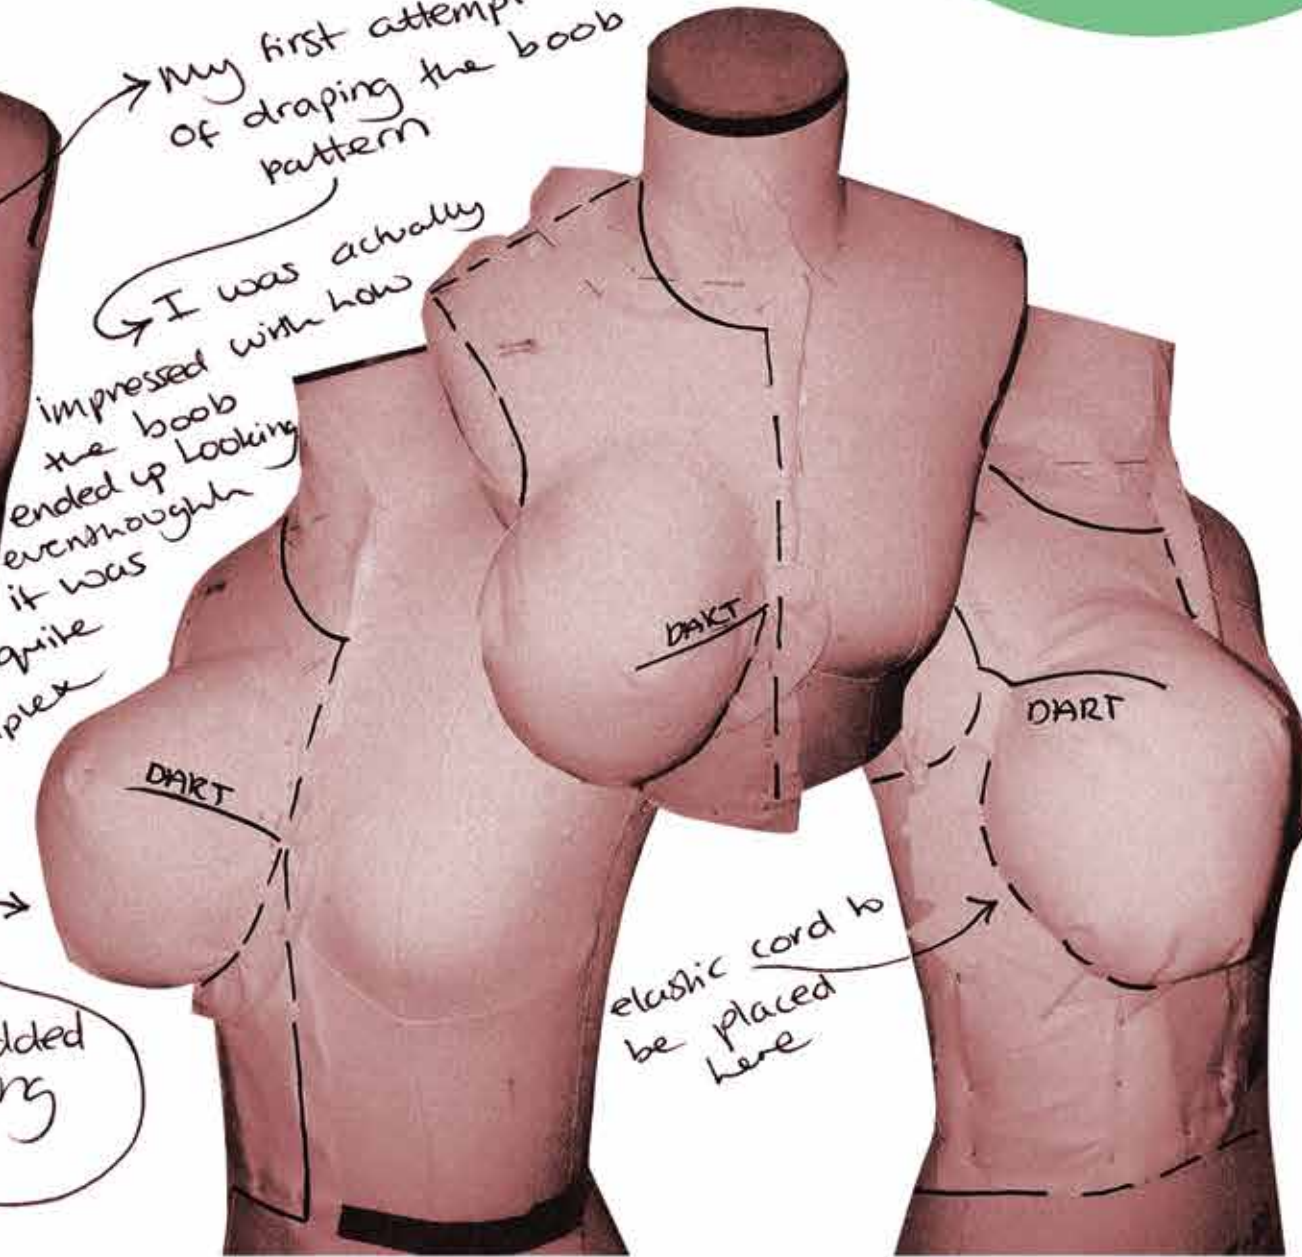

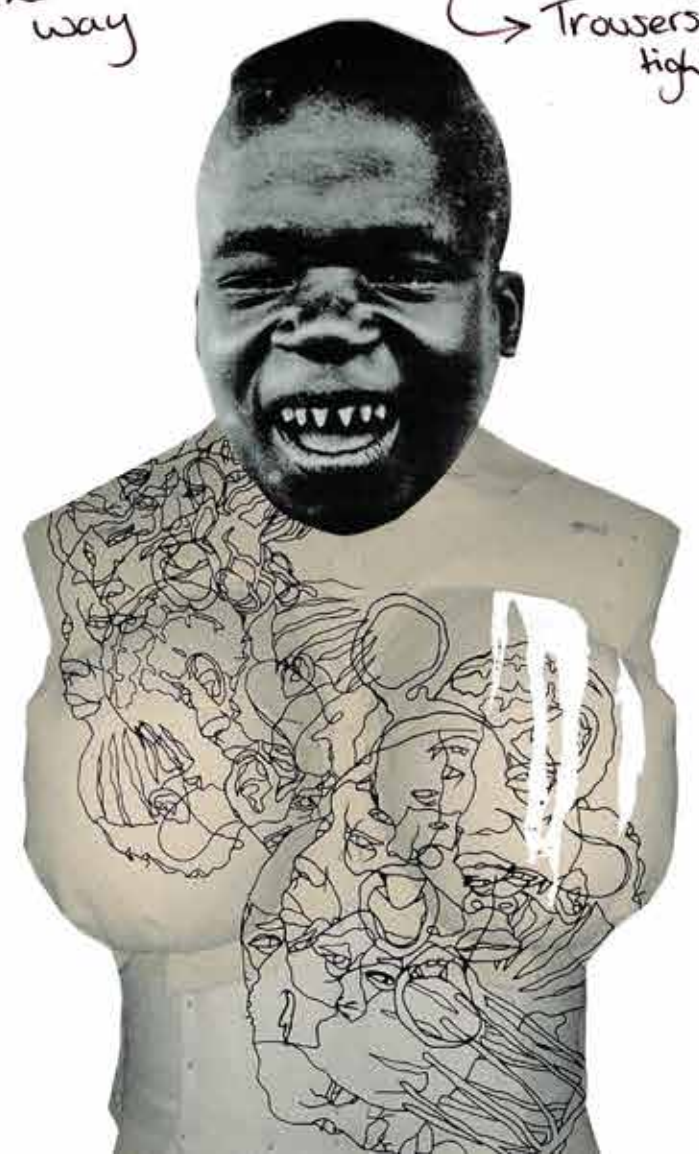

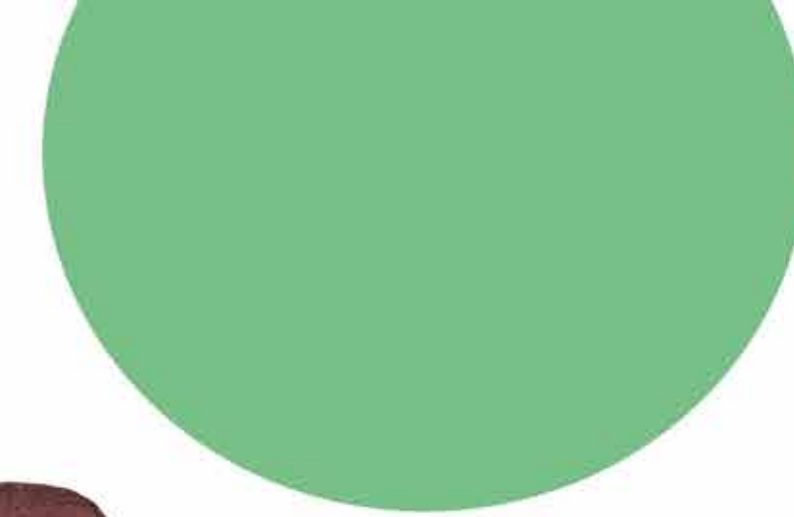

use elastic cord to help enhance the shape

Boobs to be padded with pillow stuffing

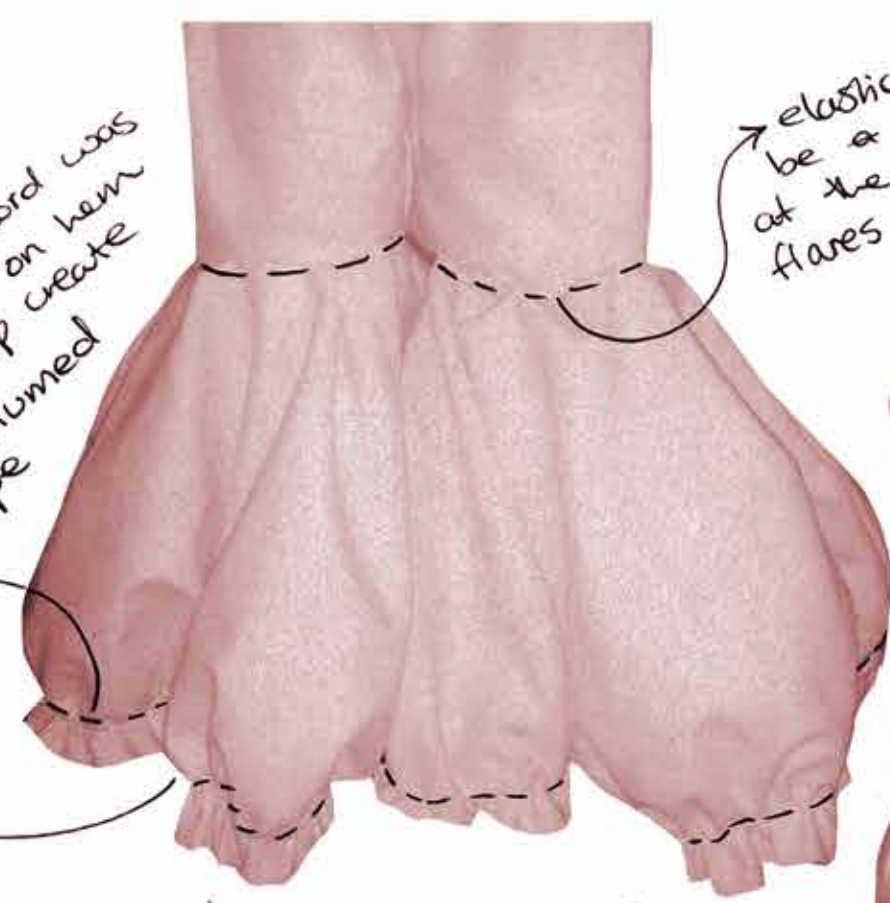

My first attempt of draping the boob pattern
I was actually impressed with how the boob ended up looking even though it was quite complex

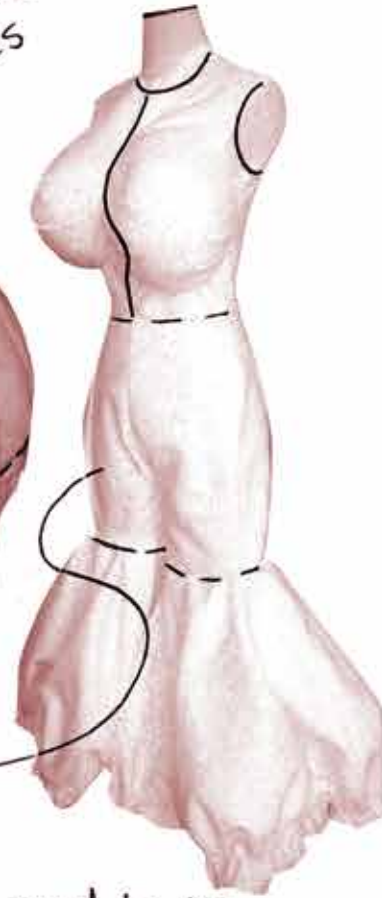

elastic cord to be placed here

elastic cord was placed on hem to help create the volumed shape

elastic cord to be added as a at the top of the flares

I am really happy with the skirt come of my flares, they kind of look like noses in a way

Trousers need to be tightened

The elastic cord needs to be lower
So it looks more like a pregnant belly

Needs to be 15 cm down

I need to make the tulle more dramatic to make the skirt flare out more

Needs to be lowered by 1.5 cm

elastic cord to be placed lower down by 4 cm

length of skirt is 48 cm long

Both need to be stitched by hand (invisible stitch)
