

Lien à vie: UNBROKEN

This project is the culmination of my studies. I was inspired by my childhood, such as my relationships and memories with my family.

Printing ideas, colours, shapes, details were all inspired by my family, mainly from the fact that part of my family had been living in Switzerland and my special bond with my mother, stepdad and siblings.

LIVE WITH CONFIDENCE

In collaboration with SuperDry I created a sustainable 2 piece outfit from previous garments. On this project I am inspiring myself in a strong and independent woman, my grandmother, she is a feminist. This project shows confidence and freedom. Printing ideas, colours, shapes, details were all inspired by the feminism movement and also by my grandmother.
