RE: INTERDIGITATE: COLLECTION STATEMENT

A 6 look RTW collection drawing inspiration from hand sourced vintage garments. Leather gloves was a starting point resulting in draped continuous hem lines, pearl buttons and button holes as decorative and functional features.

The word, 'interdigitate' tells the story of this collection. The imagery of two hands interlocking illustrates the hand sewn insertion stitch details and continuous, looping hems seen throughout, highlighting the symbolism of the gloved hand. The gloves potential to be animate and inanimate- becoming a surrealist object when separated from the body is a theme that fascinates me and was explored through the use of fringe in look 2.

RE: VINTAGE BED JACKET (30'S?) INSERTION STITCH

Make sure to experiment with different fabric weights and different stitch styles.

Can the stitch be used to create shaping or just seams? darts
