Building On The Body

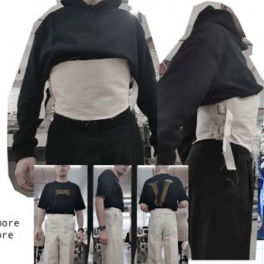

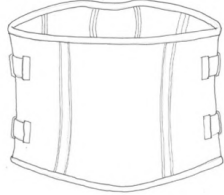

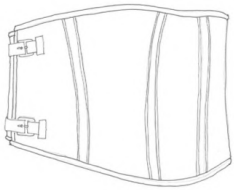

Fitting Form

Up cycling mens shoulder pads from old jackets and blazers to create a new more feminine form on the body and adding more volume and shape.

INAPPROPRIATE SCHOOL UNIFORM

Corset needs more shape to be more form fitting.

REBLIOUS UNIFORM

RIGID

Rethinking Function And Fit

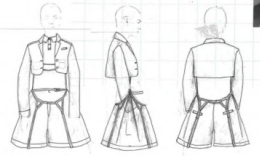

BODICE SHAPE

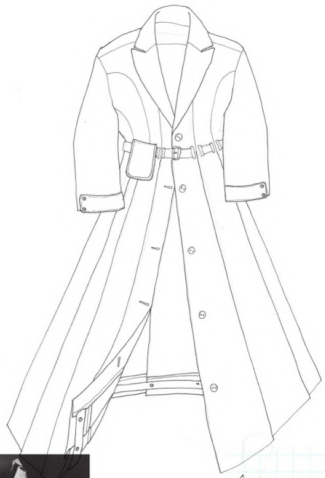

SHIELDING

Trousers, slacks, or pants are an item of clothing that usually have the waistline in Central, covering both legs separately.

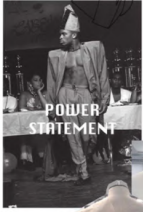

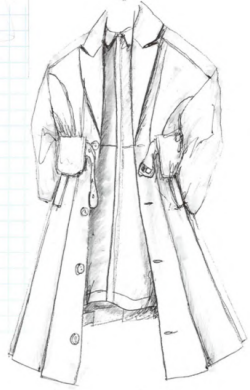

Boning used to give the pleats to keep shape, too loose in waist and too wide

Under skirt used as support to allow pleats to kick out in a more natural way

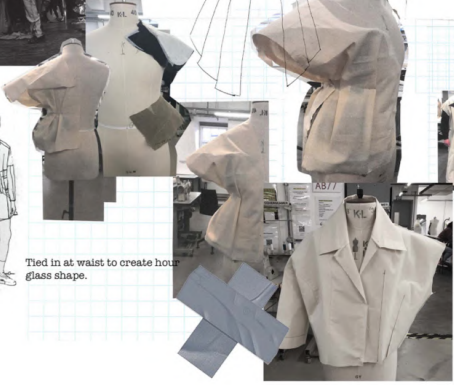

POWER STATEMENT

Not enough structure on the pleats, too wavy at the bottom.

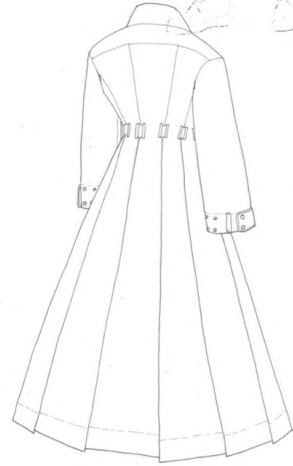

Tied in at waist to create hour glass shape.

BOLD Intimidation
