ETERNAL
GRACE

ETERNAL GRACE

COLLECTION CONCEPT STATEMENT

Titled "Eternal Grace," my Final Major Project embodies a deep understanding of the longing for both comfort and confidence in one's own skin. Tailored for women who crave both ease and audacity, the collection seamlessly blends the softness of delicate knits with a daring reinterpretation of historical and contemporary silhouettes, envisioned for Spring/Summer 2025. Inspired by organic elements such as pearls, oysters, and shells, the pieces aim to evoke a sense of authenticity and boldness in every wearer.

With a vision to empower women to embrace their individuality with grace, the collection introduces a rental concept, offering versatile pieces that can be styled in numerous ways for multiple occasions. Each garment celebrates the natural curves of the female form, harmoniously combining soft textures with experimental forms and structures, infused with an element of unpredictability. "Eternal Grace" invites women to embrace their uniqueness confidently, embodying both comfort and boldness in every ensemble.
